EGYPTIAN INGREDIENTS. INTERNATIONAL OUTLOOK.

Start with the ingredient.

Tomato paste, chilli concentrate & aseptic fruit purées.

6th of October City · Egypt

alfursaneg.com

A BUYER'S WORKING REFERENCE

From your spec to your quotation.

Al-Fursan processes Egyptian tomatoes and fruit into aseptic ingredients. Use these pages to define the product, then confirm the order-specific details with the export desk.

01 / Specify

Product, target specification, application and quantity.

02 / Review

Request a product sample and the required analytical information.

03 / Quote

Confirm packing, destination port and FOB, CFR or CIF terms.

04 / Agree

Confirm availability, loading and the document set before ordering.

FIND YOUR INGREDIENT

Harvest calendar	03
Tomato & chilli	04–06
Fruit purées & concentrates	07–12
New for 2026	13–16
Packing, documents & contact	17–19

"On request" indicates a detail to agree with the quotation. "Not disclosed" indicates information not published in the supplied sources.

THE HARVEST LEDGER

A year in ingredients.

Plan around the crop. Al-Fursan publishes these seasons for its main fruit and vegetables.

Crop	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Tomato	■				■	■	■					■
Strawberry			■	■								
Mango								□				
Guava									■	■	■	

■ Published season □ Peak month

Source: alfursaneg.com/products/.

Two tomato campaigns.

Winter: December–January.
Summer: May–July.

Mango reaches its peak in August.

Chilli, peach, apricot, apple and carrot seasons: Not disclosed. Availability and volumes: On request.
