INSIDE THIS PROFILE

03	Our story
04–07	Production & quality
08–10	Range & seasons
11–14	Markets & partnership

A FAMILY BUSINESS, AN INTERNATIONAL OUTLOOK

From Jordan to the Nile Delta.

15+

years in concentrates

Process imagery; AI-generated.

Family origins

Al-Fursan began as a family business in Jordan, building its experience in concentrates.

2019

A move closer to the crop

The factory moved from Jordan to Egypt to work close to Nile Delta fruit. Today, the plant is in 6th of October City, Giza.

Exact founding year: Not disclosed.

Sources: alfursaneg.com/about/; Gulfood 2026 exhibitor profile.

THE FACTORY

Rooted in Egypt. Built around control.

Process imagery; AI-generated.

Electronic process control

Electronically controlled lines log process data, with technical guidance from an Italian team.

6th of October City

The factory is located in the North Expansions of the Industrial Zone, Giza. Spare parts and engineers are on site.

PRODUCTION

From crop to aseptic ingredient.

01 Start with the crop

Tomatoes and fruit from Egypt's agricultural belt form the basis of the range.

02 Keep the process visible

Electronic controls record process data. On-site laboratories support chemical, physical, pH and microbiological analysis.

03 Fill aseptically

Products are filled in European-made aseptic bags. Dry and cold storage are available on site.

Process imagery; AI-generated.
